## Job Title: Development Intern

### Company Overview:

PivotGen is a developer of wind and solar energy projects throughout the United States. With a focus on creative problem solving, PivotGen develops new energy generation projects and engineers solutions to refurbish and give new life to older projects. Our company prides itself on our commitment to innovation and excellence, and we are looking for a development intern to join our team.

### Job Summary:

As a development intern, you will work closely with our development team to support the evaluation of potential projects for acquisition. You will also collaborate with other departments to keep them informed of the potential opportunities being evaluated. This is an excellent opportunity for a motivated and driven individual to gain hands-on experience in various aspects of the development process.

### Responsibilities:

- Conduct research on potential wind energy project sites, including site identification, landowner outreach, and feasibility studies
- Assist with wind resource assessment, including data collection and analysis
- Support the development of project economic models
- Work with permitting agencies to obtain necessary permits and approvals
- Assist in the preparation of project proposals, reports, and presentations
- Participate in project meetings and provide updates to the team
- Perform other duties as assigned

### Requirements:

- Currently pursuing a degree in a related field, such as renewable energy, environmental science, economics, or engineering
- Strong analytical and problem-solving skills
- Excellent written and verbal communication skills
- Ability to work independently and as part of a team
- Proficiency in Microsoft Office, particularly Excel
- Knowledge of wind energy project development is a plus
- Availability to work full-time for the duration of the internship

### Benefits:

- Paid internship
- Hands-on experience in wind energy project development
- Exposure to a wide range of project development activities
- Opportunity to work with a talented and experienced team

### How to Apply:

If you are interested in this exciting opportunity to gain practical experience, please submit your resume and cover letter to [DevelopmentInternship@pivotgen.com](mailto:DevelopmentInternship@pivotgen.com). We thank all applicants for their interest, however, only those selected for an interview will be contacted.
