Job Title: Engineering Intern

Company Overview:

PivotGen is a developer of wind and solar energy projects throughout the United States. With a focus on creative problem solving, PivotGen develops new energy generation projects and engineers solutions to refurbish and give new life to older projects. Our company prides itself on our commitment to innovation and excellence, and we are looking for an engineering intern to join our team.

Job Summary:

As an engineering intern, you will work closely with our engineering team to support the ongoing technical evaluation efforts of wind energy technologies that will facilitate the repowering of operating wind projects. You will also collaborate with other departments to ensure our due diligence meets the repowering requirements and is delivered on time. This is an excellent opportunity for a motivated and driven individual to gain hands-on experience in the engineering industry.

Responsibilities:

- Assist with the evaluation of potential technology improvements as well as operating wind energy projects that we are exploring repowering
- Conduct research and analysis to support the engineering team
- Collaborate with cross-functional teams to ensure product requirements are met
- Create and maintain documentation related to engineering projects
- Contribute to the continuous improvement of our engineering processes

Requirements:

- Currently enrolled in an accredited engineering program or related field
- Strong technical skills and proficiency in relevant software (MS Excel, Word, and PowerPoint) and tools
- Excellent communication and interpersonal skills
- Ability to work independently and collaboratively in a team environment
- Detail-oriented and highly organized
- Positive attitude and eagerness to learn

Benefits:

- Paid Internship
- Hands-on experience working on engineering projects
- Exposure to various aspects of the engineering industry
- Mentorship from experienced engineers
- Opportunity to contribute to the development of innovative products

How to Apply:

If you are interested in this exciting opportunity to gain practical engineering experience, please submit your resume and cover letter to EngineeringInternship@pivotgen.com. We thank all applicants for their interest, however, only those selected for an interview will be contacted.
